NEXX Systems Names Barry Glasgow Vice President of Worldwide Sales

Billerica, MA – June 20, 2006 – NEXX Systems, a leading provider of processing equipment for advanced wafer-level packaging applications, today announced that it has named Barry Glasgow as Vice President of Worldwide Sales.

Stated Richard Post, CEO, "We are delighted to announce this change our sales organization. Barry has been a key contributor to the recent growth of the Company, and we look forward to his impact on worldwide sales as we expand our operations.

Mr. Glasgow joined NEXX in May 2004 as vice president of sales in Asia. He has more than 30 years experience in marketing and selling semiconductor manufacturing equipment, both domestically and internationally.

NEXX Systems brings exceptional technical expertise to flip chip and advanced packaging. Our product lines provide the most efficient, yet affordable, systems of their kind: Nimbus for multi-layer sputter deposition of metals, and Stratus for high throughput electro-deposition of metals. Additional information can be found at: www.nexxsystems.com.

"Safe Harbor" statement: This release may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 regarding future events or the future performance of NEXX Systems. These statements are only predictions. Actual events or results may differ materially from those in other forward-looking statements set forth herein. Among the important factors that could cause actual events to differ materially from those in other forward-looking statements are potential fluctuations in quarterly results, dependence on new product development, rapid technological and market change, acquisition strategy, manufacturing and sourcing risks, volatility of stock price, international operations, financial risk management, and future growth subject to risks. NEXX Systems is under no obligation to, and expressly disclaims any obligation to, update or alter its forward-looking statements, whether as a result of new information, future events or otherwise.
